Installing RENESAS Flash Development Toolkit.

How to install Flash Simple to your laptop:

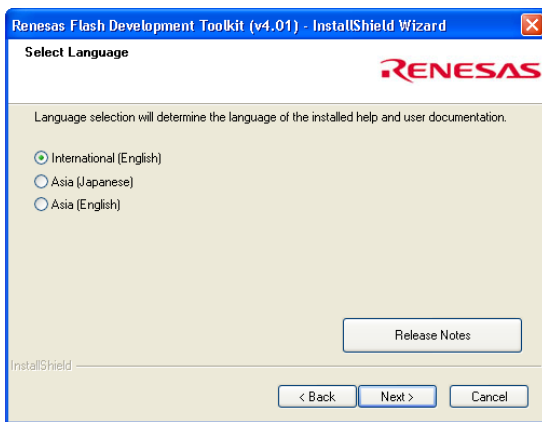

Step 1

Go to the BBV support website: www.support.bbvctv.com
Click 'Software and Utils'
Click 'New Version of Flash Simple' and save to your desktop
Double click on 'fdtc401r00' zipped file on your desktop, then double click 'fdtv401r00' file when it opens.

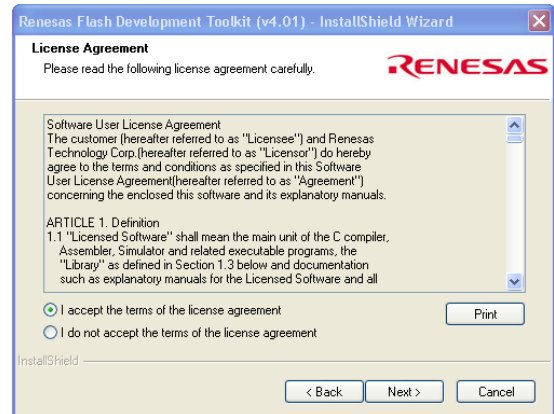

Step 2 'Select Language'

Click 'Next'
Then select the language and click 'Next'

Step 3 'Licence Agreement'

Read through the Licence Agreement and click on the appropriate box to confirm acceptance of the terms.

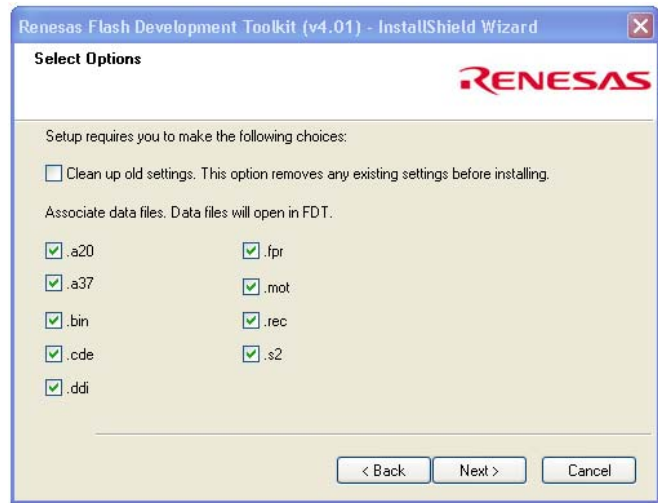

Step 4 Select Features

All boxes should be ticked.
Click 'Next'.

Step 5 Select Options screen

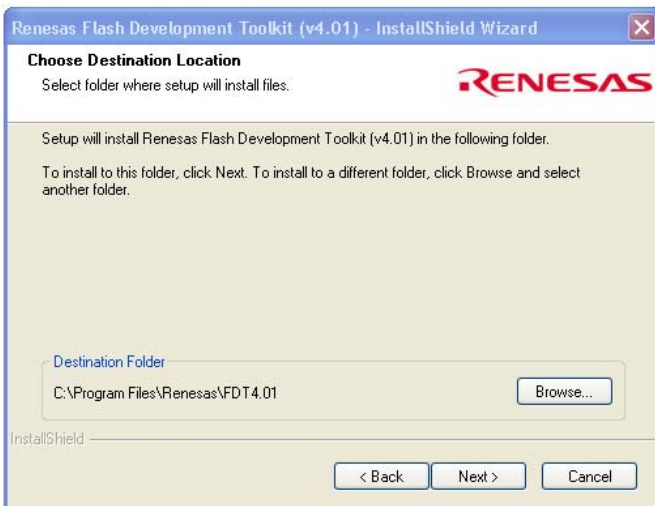

All boxes should be ticked.
Click 'Next'.

Step 6 Choose Destination Location

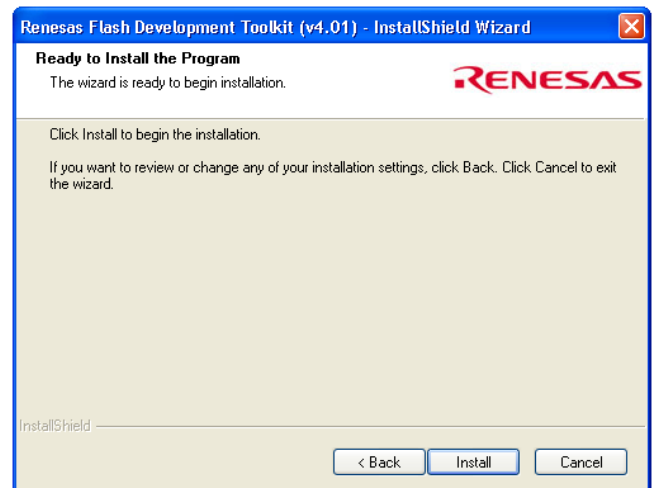

This screen allows you to choose the location of the files. It is recommended they are saved in the default location: C:\Program Files\Renesas\FDT4.01

Click 'Next'

Step 7 - Ready to install Program

Click 'Install'.

Step 8 - Successfully Installed.

Once the install is complete you will see this screen. Click 'Finish'.

This window will now close.

Configuring RENESAS Flash Development Toolkit.

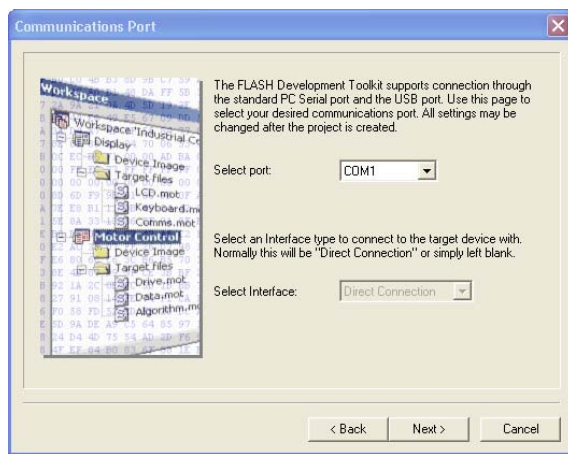

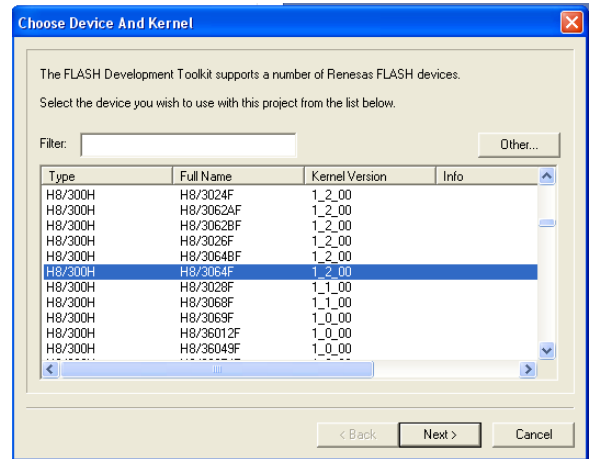

Step 9

- Go to Start
- Click All Programs
- Click Renesas
- Click Flash Development Tools 4.01
- Click Flash Development Tools 4.01 Basic

Step 10 Choose Device and Kernel

This screen will appear
Select H8/3064F

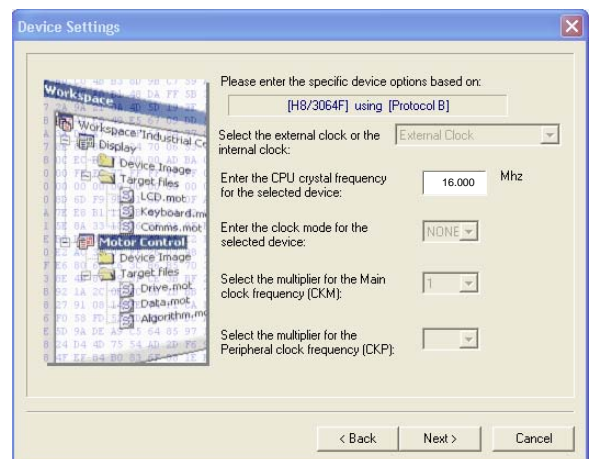

Step 11 COM Port selection

The correct COM port is selected by using the drop down box. The correct COM port will depend on your PC.

Click 'Next' when the correct COM Port is selected.

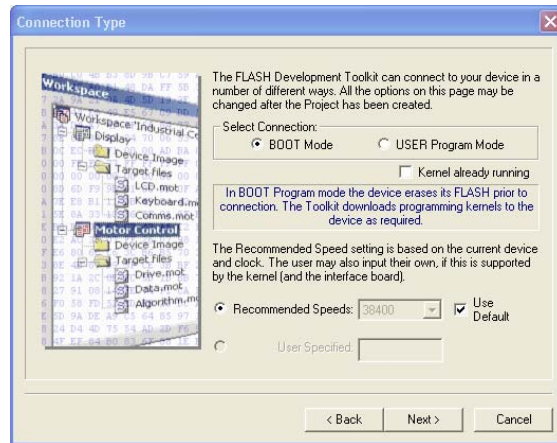

Step 12 Device Settings

Change the CPU crystal frequency to 16.000 Mhz
Click 'Next'

Step 13 Connection Type

Click 'Next'

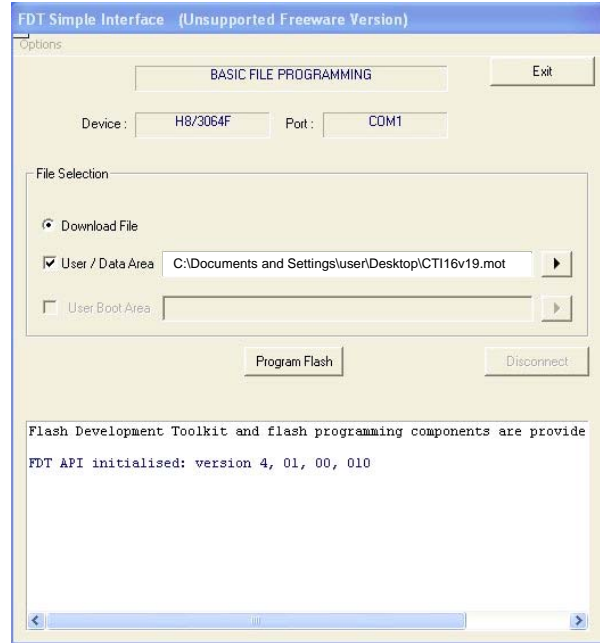

Step 14 Programming Options

Click 'Finish'. The FDT Simple Interface screen will come up:

Selection of file to be used & Programming Flash

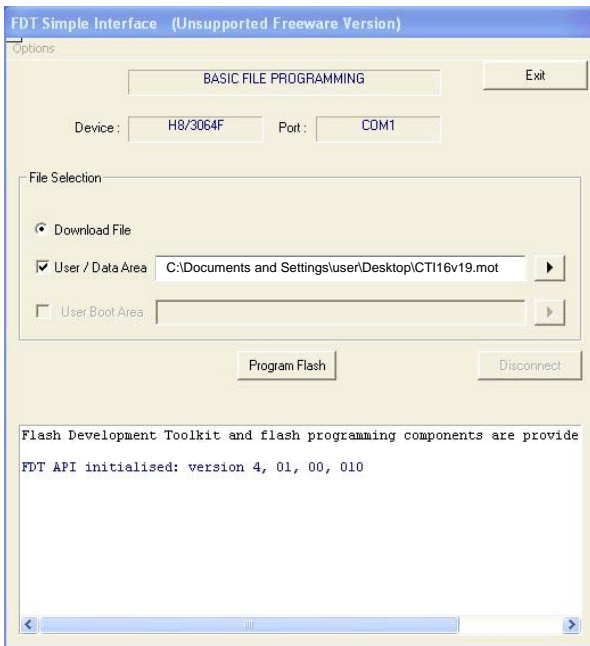

Step 14 File Selection

Click the 'User/Data Area' box
Click the arrow
'Browse' to where the CTI16v22.mot
file is saved.
This file will either been downloaded
from the BBV support website or
would have been sent be BBV
Support.

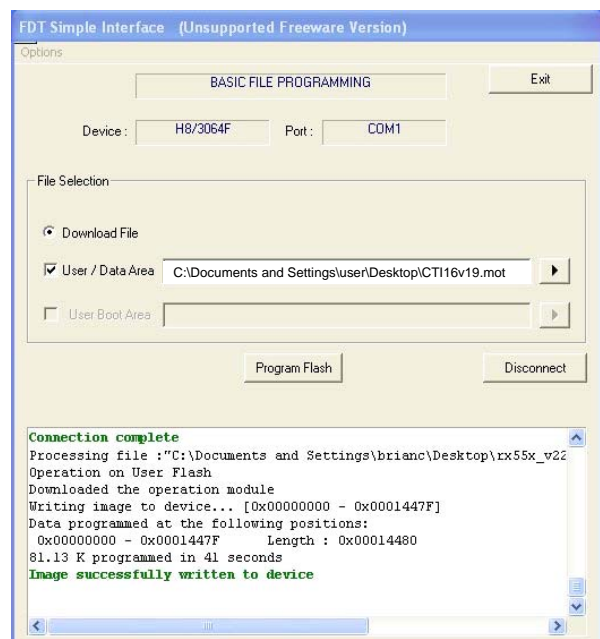

Step 15 Ready to Program Flash

With the new file selected. It is now time
to connect up the CTI unit to the RS232
Kit. This must be done with the CTI Unit
is powered down. see page 9. When
connected as shown & Programming link
fitted power the CTI up.
Then Click 'Program Flash'

Step 16 Image successfully written to device

With the new firmware installed, Power down the
unit and remove the programming link. This CTI
unit is now updated.

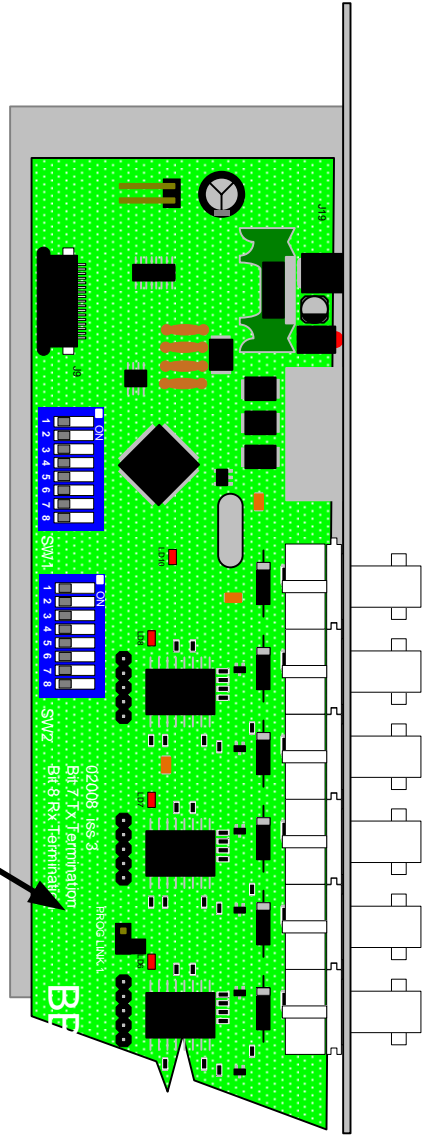

Connection Information, switch settings & Location of Programming Link

USE RS422 CONTROL IN PORT TO PROGRAM THE CTI UNIT

PROG LINK1 closed for programming

PROG LINK1 open for standard operation

Extend your BBV Warranty from 12 months to 3 years

As of the 1st September 2008 BBV have offered our customers the opportunity to extend the standard 12 month warranty to 3 years.

You must register for the extended warranty within 12 months of the date of manufacture.

How to register for the 3 year warranty

Registering for the new, longer 3 year warranty term is quick and easy. Either:

Complete the warranty application card that comes in the box with your BBV product, and return it FREEPOST to BBV:

BBV 3 Year Warranty

If this card is returned with the serial number of the product and the installation company details BBV will extend the warranty period from 12 Months to 36 Months.

Number of Units, Start Serial No. Final Serial No.
